Pananda's "art" is the use of her acute awareness and sensitivity, triggering the transmutation of energies. This facilitates the healing process in others and assists them in gaining clarity for their own "journey".

She is a trance channeller and is able to use her link with higher knowledge that directs and guides her in what *therapy* to use and how to use it for maximum benefit to the client.

Pananda is a transmuter of energy. This facilitates the conversion and clearing away of blockages in the body and the etheric and auric fields, to assist you to Walk your Talk, standing in your Power, with love of self and of others.

Pananda provides training classes for Reiki, Zenith Omega, Trance Channelling, and Meditation.

Zenith Omega is a systematic transformational tool utilising colour and light frequencies to release energy blocks from the Physical, Mental, Emotional, and Spiritual bodies. Thus restoring each individual to a higher state of potential.

Spiritual Healing is a form of "hands on" energy healing. It is aligning to Life Force Energy. This energy can be channelled for a beneficial effect to a person, place or object, at all levels; Body, Mind and Spirit through the intent of loving thoughts. Spiritual Healing may be given to any person, without distinction, who is suffering from any illness, injury or problem.

Shamanic Drum Healing is a form of energy and sound therapy and is a Shamanic healing process. The drum is played over the client and the sound permeates through the energy fields of the client and can be a catalysing agent for healing.

Trance Channelling is a form of energy communication that can happen in a number of forms.

"Love & Light" is a collective consciousness energy, channelled through Pananda, that provides teachings to us on who we are, and assists us to look within, to walk our talk, and grow.

Counselling is a helping process whose aim is to assist clients to:

- * Cope with difficult life circumstance
- * Make better choices
- * Handle a particular problem

Workshops in Spiritual Development are also available throughout the year.

When we touch the sacred in us and re-establish a relationship with it, then healing can occur.

Ronald is qualified in General and Bereavement Counselling, TCM acupuncture massage techniques, Zenith Omega, Spiritual Healing, and other energy healing methods (e.g. sound therapy, drumming, music, flute, crystals, and breath). He has a strong interest in traditional healing modalities and shamanism, and incorporates these into his consultation sessions.

His "craft" is the use of his awareness and sensitivity, in "feeling" or "seeing" what will be the catalyst for change in a client. This facilitates the healing process and assists them in gaining clarity for their own "journey". His approach to healing is KALA — "there are no limits".

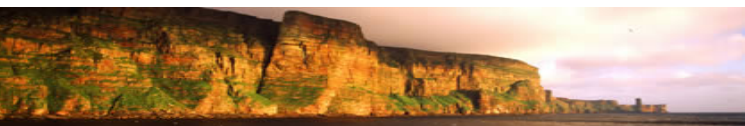

Circle of Light

Working as a team, we regularly conduct Residential Retreats.

The retreats have been created to encourage people to be who they are and for healing to take place. These require your full participation, to speak and listen from your heart and direct experience. It is about your willingness to discover something about yourself.

Explore and discover yourself, in a safe, sincere and non-judgmental environment. With insight and assistance in exploring your life's purpose. A result of many year's research, first-hand exploration and experiences of the facilitators.

A unique journey for all who attend.
